Research Papers

Virtual experiments: a new approach for improving process conceptualization in hillslope hydrology
M. Weiler and J. McDonnell 3
Semidiscrete pesticide transport modeling and application
X. Chu and M. A. Mariño 19
The stochastic modeling of low flows by the alternating point processes approach: methodology and application
I. Abi-Zeid, É. parent and B. Bobée 41
Exploring generalized probability weighted moments, generalized moments and maximum likelihood estimating methods in two-parameter Weibull model
S. Mahdi and F. Ashkar 62
Assessment and modelling of the influence of man-made networks on the hydrology of a small watershed: implications for fast flow components, water quality and landscape management
N. Carluer and G. D. Marsily 76
Modeling of the daily rainfall-runoff relationship with artificial neural network
M. P. Rajurkar, U. C. Kothyari and U. C. Chaube 96
Modelling streaming potential (SP) signals induced by water movement in the vadose zone
M. Darnet and G. Marquis 114
Simulating temporal and spatial variation of evapotranspiration over the Lushi basin
X. Mo, S. Liu, Z. Lin and W. Zhao 125
Regional and seasonal trends in the oxygen and hydrogen isotope ratios of Finnish groundwaters: a key for mean annual precipitation
N. M. Kortelainen and J. A. Karhu 143
Laboratory investigations of compatibility of the Kuwait Group aquifer, Kuwait, with possible injection waters
A. Mukhopadhyay, E. Al-Awadi, R. Oskui, K. Hadi, F. Al-Ruwaih, M. Turner and A. Akber 158
Hydrologic and geologic factors controlling surface and groundwater chemistry in Indian Wells-Owens Valley area, southeastern California, USA
C. Güler and G. D. Thyne 177
Temporal and spatial patterns of soil moisture in semiarid badlands of SE Spain
Y. Cantón, A. Solé-Benet and F. Domingo 199
Influence of natural time-dependent variations of electrical conductivity on DC resistivity measurements
A. Rein, R. Hoffmann and P. Dietrich 215
Calibration of effective soil hydraulic parameters of heterogeneous soil profiles
R. K. Jhorar, J. C. van Dam, W. G. M. Bastiaanssen and R. A. Feddes 233
Application of the deuterium tracing method for the estimation of tree sap flow and stand transpiration of a beech forest (*Fagus silvatica* L.) in a mountainous Mediterranean region
V. Marc and M. Robinson 248
Hydrological modeling of Seydi Suyu watershed (Turkey) with HSPF
M. Albek, Ü. Bakır Öğütveren and E. Albek 260
Multidecadal hydrochemical response of a Sierra Nevada watershed: sensitivity to weathering rate and changes in deposition
T. Meixner, C. Gutmann, R. Bales, A. Leydecker, J. Sickman, J. Melack and J. McConnell 272

Discussions

Comment on "A reappraisal of the Kalman filtering technique, as applied in river flow forecasting" by Ashan, M., O'Connor, K.M., 1994. Journal of Hydrology 161, 197–226
J. Szilagyi 286
Reply to Comment on "A reappraisal of the Kalman filtering technique, as applied in river flow forecasting"
M. Ahsan and K. M. O'Connor 290
